UNDER THE INFLUENCE? UNDER ARREST!

Choose Your Ride.

A DUI will cost you...

- If it's your first offense you face up to one year in jail and a \$5,000 fine.
- You face being ordered to wear an electronic ankle bracelet.
- You lose your license for 90 days.
- You will be required to install an ignition interlock for one year on your car. An interlock prevents your car from starting even if you've been drinking. The interlock costs about \$90 a month or \$1,080 for the year.
- You'll need a defense attorney and that can cost as much as \$10,000.
- Your insurance rates will increase anywhere from 30% to 100%.
- If you refuse to take the breath test, you'll still face all these costs, but you'll also lose your license for one year instead of 90 days.
